REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Independent Claims 1, 13, 18, 30 teach the limitations "simulating a browser in the data processing system to form a simulation wherein the browser being simulated to able to communicate through the firewall, and wherein simulating the browser includes preparing an encoded data stream similar to one that is sent by an actual browser" in combination with the dependent claims 2-8, 14-17, 19-25.

The prior art does not teach the cited limitation.

The Beall reference teaches clients simulating sockets to communicate across a firewall but includes an actual browser. The Myers reference teaches load testing, simulating browsers on a network connecting to a server but only speaks of a firewall for administrative purposes.

No prior art reference of record implements or suggests all the limitations of the claimed limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
